

**Anti-slip grip for
independent living**

Customer Testimonials

We're so lucky to have such happy customers. Here are some of the kind reviews people have posted about Tenura products and services.

Nick ★★★★★

Impressed with the speed of service. As for the product, easy to install and looks professional. Works really well! No more slip sliding around :-)

Patricia ★★★★★

Stepping into the shower I had a nasty fall, my confidence took a knock, sent for these strips, my husband laid them in the shower, they are brilliant, so much better than anti slip mats, and more hygienic I think.

Highly recommend.

Elaine ★★★★★

The cutlery holder was very useful for me as I get arthritic pains especially in my right hand and the jar holder will be very helpful when I come to use it as I don't have the grip in my hands like I used to.

Our silicone products are antimicrobial, preventing fungi and bacteria from harboring.

Look for the antimicrobial symbol

ANTIMICROBIAL

Why we use silicone*

Silicone is fully washable and autoclave safe up to 250°C making it ideal for repeated, long term use.

All of the Tenura silicone* products are antimicrobial providing continuous built-in protection against a wide range of bacteria including MRSA, E.coli and Klebsiella. Also protecting against mould and fungi.

Why we don't use PVC

To make material soft enough for grip and anti-slip products PVC uses Phthalates - a family of chemical linked to suggestions of health problems and many governments are banning or discouraging the use of these chemicals.

Because phthalates are additives they leach out of the material. PVC products lose their grip and flexibility over time.

Both these problems are overcome with the use of Silicone, an inert and inherently grippy material.

Tenura products are not PVC and do not use Phthalates.

Tenura products are washable.

* Tenura Extreme and No-Slip Fabric are non-slip materials not strips and discs.

- **Provide firm grip**
- **Non-toxic and chemically inert**
- **Phthalate plasticiser free**
- **Temperature safe up to 250°C**
- **Antimicrobial**
- **Fully washable and long lasting**

Jar and Bottle Opener

ANTIMICROBIAL

Tenura Jar and Bottle Openers are two separate products that are designed to fit a variety of sizes and provide an enveloping area of traction and the firm grip and hold needed to assist in turning the most stubborn of tight screw fit caps and lids.

The domed outside of the device provides a flexible, soft handle that is ridged to provide firm purchase when gripped with fingers and thumb and/ or in the palm of the hand. Tenura Jar and Bottle Openers are fully washable and long lasting.

Can be used to grip and provide purchase on cupboard handles and doorknobs

Applications

Uses for Tenura Jar and Bottle Openers include:

- Assists in opening bottles, jars and pill containers of all shapes and sizes
- Can be used to grip and provide purchase on cupboard handles and doorknobs
- Useful for people with arthritis or any condition that weakens hand grip
- Can be operated with one hand, with the use of a Tenura Mat on the base of the jar or bottle
- Use as a tap turner

Tenura Bottle and Jar Opener

Item	Size	Red	Blue	Yellow
Tenura Bottle Opener	6cm	T/B-1	T/B-2	T/B-3
Tenura Jar Opener	12cm	T/J-1	T/J-2	T/J-3

Kitchen Packs

Typically, users who benefit from a Bottle Opener will also appreciate the Jar Opener so both products, along with a handy anti-slip coaster, are available as a Kitchen Grip Set.

Floor Mats

ANTIMICROBIAL

The Tenura Anti-Slip Floor Mat is made from a non-toxic silicone rubber with excellent anti-slip qualities, and has a wide range of uses.

Whether you need support when standing up or sitting down, moving around the home, or somewhere to hold your tools on when you are working, Tenura Anti-Slip Floor Mat will do the lot.

The mats properties will give you the confidence that you may have not had before.

It is dishwasher safe, so can be washed either this way or by hand, and is available in 3 different colours.

Tenura Anti-Slip Floor Mat is available in 60.5cm x 45.5cm.

Applications

Uses for Tenura Anti-Slip Mats include:

- Aid when standing and sitting
- Wheelchair users
- Moving on and off beds
- Beneath rugs on smooth and slippery surfaces
- Child's play mat

- **Creates a strong antislip surface to help prevent slips and falls**
- **Perfect for applying at the base of beds and chairs**

Coasters

Tenura Mats and Coasters will protect tables and furniture whilst providing a stable placement for items which might otherwise get knocked over or slide out of place.

A great aid for people with reduced mobility Tenura Mats and Coasters also provide a cushioning effect between hard surfaces such as ceramics and glass. Antimicrobial and suitable for dishwasher and autoclave cleaning these Mats and Coasters are an unobtrusive way to minimise spills and breakages.

Prevent plates, bowls and crockery from sliding on tables, worktops and trays

Applications

Uses for Tenura Extreme include:

- Prevents plates, bowls and crockery from sliding on tables, counters and trays
- Holds chopping boards in position
- Holds kitchen appliances and mixing bowls in place
- Holds objects firm on moving or angled surfaces
- Anti slip solution for those with reduced vision

Cup Holders

Providing a firm grip on most types of cup and a Non-Slip base which will hold fast on smooth surfaces, tables and desktops, the Tenura Cup Holder helps to prevent spills and keeps cups in place.

The specially designed gripper holds cups of all shapes and sizes so that the Cup Holder stays with the cup wherever it is relocated and the semi-rigid body contains small spills and drips, protecting surfaces from damage and marking.

Applications

Uses for Tenura Cup Holders include:

- Providing firm grip for cups in domestic and clinical circumstances, preventing spills and marking of surfaces
- Holds cups firm on surfaces that are not horizontal and / or are subject to motion or tipping
- Useful for people with an unsteady grip or muscle tremors

CupCaps

Make drink containers spillproof with this excellent drinking aid for all ages.

Simply place the CupCap over a cup or glass, insert a straw through the purpose-made, self-sealing eyelet in the centre to create a virtually spillproof container for liquids.

Applications

Uses for Tenura Cup Caps include:

- Seals cups, mugs and cans preventing spills and stains
- Keeps drinks fresh for longer

Two sizes to fit a large range of cups and glassware

Cutlery Grips

A universal anti-slip sheath, designed to fit cutlery handles of all shapes and sizes for people with poor grip.

A large soft handle that is textured to provide firm purchase when gripped in the hand. This is particularly useful for people with reduced hand function, unsteady or weakened grip and for people with limited joint movement in the hand.

Tenura Cutlery Grips are fully washable and long lasting. This product is perfect for domestic use to maintain an independent lifestyle and for use in care and clinical environments.

Applications

Uses for Tenura Cutlery Grips include:

- Assists grip and provides purchase on cutlery handles of most types, shapes and sizes
- Useful for people with arthritis or any condition that weakens hand grip

Tenura Grip Non-Slip Cutlery Grip

Childrens Cutlery Grips are available in sets of 2		T/PCG-R	T/PCG-B

Non-Slip Fabric

This simple mesh can be cut to shape and positioned between surfaces to prevent movement.

Ideal for applications such as rugs, cushions and shelving. It is easily removed and washable

- Creates a comfortable non-slip surface
- Cushioning properties
- Completely waterproof
- Washable
- Cut to size easily

Applications

Uses for Tenura Non-Slip Fabric include:

- Drawer, shelf and tray liners
- Work surface and counter top matting
- Holding firm on chair and settee seats and back rests
- Holds objects firm on surfaces that are not horizontal and / or are subject to motion or tipping i.e use as a table mat on boats and in caravans and motorhomes
- Works extremely well as rug underlay, as it will stop the rug from slipping while being unobtrusive

Anti-Slip Bathroom Stickers

Aqua-Safe strips and disks are manufactured from an embossed, non-abrasive material, designed especially for uses in wet areas and barefoot applications.

Suitable for applications on bath and shower bases, our aids will provide excellent non-slip properties when bathing or taking a shower.

These anti-slip strips and disks are not just confined to the bathroom, you can use them in any area which is exposed to water regularly. Please note the material must be applied in clean and dry conditions.

Applications

Uses for Tenura Anti-Slip strips and disks include:

- Baths and shower trays
- Frequently wet and slippery floors and surfaces

- Helps to prevent slips and falls in dry and wet conditions
- Made from an embossed, non-abrasive material which is kind to skin and clothing

We can provide many services to satisfy Resellers requirements

Custom Production and Packaging

Tenura can offer custom colours, sizes, logos and match any Pantone or RAL reference. Minimum order quantities apply for custom production.

This could be printing your company logo to our current stock items (We have a range of shapes and sizes with emboss/deboss Mats and Coasters). Or offering completely private label item(s) with no mention of Tenura at all.

In addition, custom made retail packaging can be offered exactly to our customers' requirements.

Dropshipping

If you are short on storage space, we offer a dropshipping service to dispatch products to your customers directly from our warehouse, tracking numbers can be provided. We can even provide invoicing in your name if necessary.

Barcodes

Tenura is a GS1 registered company, so we can produce internationally recognised EAN or UPC barcodes for your website or retail packaging if you so desire.

Tenura is a range of anti-slip and grip products for the home and for clinical uses. Our complete range is available to buy at www.tenura.co.uk or call us now for further information on +44 (0)1254 832266

Tenura is non-toxic and chemically inert. This main silicone range does not contain Phthalate plasticisers, which are banned or restricted in Europe and the US.

The main Tenura range is antimicrobial, providing continuous built-in protection against a wide range of bacteria, including MRSA, E. coli and Klebsiella. Also protecting against mould and fungi.
